**Volunteer Committee Sign Up Sheet**

**BUCK ROCK FOUNDATION**

**Committees:**

**- Volunteer Host Program:** Volunteers will staff facilities like Buck Rock Lookout for fire detection, radio communication and to provide the visiting public with information. Volunteers will be required to attend training sessions and to commit to working their scheduled shifts. Volunteers will be required to work at least one shift per month and will be involved with the scheduling of their shifts.

**- Restoration and Maintenance Staff:** Volunteers will provide personal expertise in restoration and maintenance projects. We are especially interested in those people with carpentry, roofing, flooring and other construction skills.

**- Fundraising Staff:** Volunteers will support the Foundation's fundraising efforts. Seeking funds through grant-writing, individual donations and by increasing our membership base are the primary objectives. Volunteers may also help with the coordination and staffing of fundraising events.

**- History Committee:** Volunteers will help gather and organize historical information for future documentation. We are looking for stories, photographs and documents to consolidate into written and oral presentations of the history of this area. Especially of interest would be information about Buck Rock Lookout and its surrounding environs.

**- Education and Interpretation:** Volunteers will gather with campers and local residents and speak on subjects concerning local history and nature. The talks will be held at the base of the lookout and will last between 45 minutes and one hour. These programs encompass the core of our "Sunset at Buck Rock" series, held each summer.
